

Field Policy

The Field Policy is to assist in the task of getting field work completed in a timely manner which is above and beyond what should be expected of the field manager. Jobs too large or time consuming will now be contracted out on a set rate to be agreed to prior to work being started and paid for when work is completed. The description of the work will be posted on the Vernon Baseball website. The work will then be offered in the following order.

- 1: Players and parents of the division where the work needs to be done as a fund raiser.
- 2: Players and coaches of any division old enough to complete the job as a team fund raiser.
- 3: General public, private contractors or other teams for profit. These jobs would be contracted out and overseen by the Field Manager. All contract work costs would be approved by Vernon Baseball prior to work being started.
