

Vernon Baseball Player Movement Policy

Player movement will only be “approved” when:

- A player has successfully tried-out and been granted a roster spot on a “higher-level” team within another association. Vernon Baseball **must not** be fielding a team in that division during the current season. This does not apply to AAA in 15U Bantam and 18U Midget.
- Player movement will be granted for an “equal-level” team when a player has registered and participated in try-outs, but has not been selected and will not be on the final roster submitted to BC Baseball for a Vernon Baseball team within a division.
- Requests that meet either of the above criteria must be received prior to the start of the season; Spring (April 1st) & Summer (July 1st).
